-----------------	---	--

- A student must complete Pre-Calculus before entering the IB program in 11th grade to enroll in the AP Calculus/IB Mathematics Analysis classes.
- A student must complete Honors Algebra 2 and Honors Geometry before entering Pre-Calculus/IB Math Applications in 11th grade. ➤ A student must complete Theatre 1 & 2 before entering IB Theatre HL
- It is recommended that students take AP Environmental in 10th grade as a better foundation for IB ESS.
- It is important that your CAS project is impactful. A strong CAS project supports a well-rounded student.
- Highlighted courses show the year that the student will be taking the IB exam for that subject area.
- If you leave the IB Program before graduation or fail to complete any IB requirements, the student will revert to regular state of Florida graduation requirements.
